Launch of the FENCE Online Learning Environment

FENCE Multiplier Events

Next steps

FENCE: Fighting gENder bias and Contributing to gender Equity

Our aims are to:

- decrease gender bias,
- raise awareness and build gender competence,
- create a positive change in gender stereotypes,
- develop materials, tools and resources to support organisations, NGOs, local authorities, among other institutions and bodies.

FENCE Online Learning Environment

The FENCE Online Learning Environment will be **soon available online!!**

During the last months, partners have been working on the FENCE Curriculum and also developed the Online Modules to train users on identifying and tackling gender discrimination in the workplace. The Online Learning Environment provides to interested users the opportunity to browse through the online modules, participate in learning activities, use assessment tools to evaluate their performance and communicate with other learners and instructors. You can access the FENCE Online Learning Environment from the project's website.

The FENCE Modules are:

- 1) Overview Module
- 2) Introduction to gender and equality
- 3) Spotting discrimination and gender training
- 4) Building a positive organisational culture
- 5) Taking a stand on equality
- 6) Stereotypes and unconscious gender bias
- 7) Take Action – Make a change!

FENCE Multiplier Events

In June, each partner of the consortium will run an event to promote the project on a wider level to communicate with stakeholders of partner country. Each event will be oriented towards a more practical level sharing what has been developed so far. Each partner country will present its own gender equality best practices as well as sharing others. The aim of these events is to disseminate the results of the project to ensure what has been developed so far is of a high quality and will be useful for stakeholders and for individuals, at the same time raising awareness of online training course in FENCE. The feedback will assist us to improve our training material further.

Next steps

The **FENCE Mobile Application** will be part of the digital tools for the FENCE Project, available on mobile platforms. The mobile application will include materials developed by the project, and will encourage the interaction through the online modules.

The **Methodological Guide** will be available as part of the FENCE project to support adult educators for the delivery and exploitation of the products, tools and materials developed in this project. In this guide, you will be able to explore guidelines on integrating the training package. It will empower trainers and improve the skillset needed for working with a range of target groups.
